### DIGGS CONSTRUCTION INTRODUCES AFFILIATE FOCUSED ON NEW YORK

New York, NY - Kansas-based Diggs Construction is a family-owned builder and construction manager responsible for completing over \$1 billion worth of projects nationally over its forty-year history. Today Diggs Construction announces the formation of Diggs Construction New York, LLC (DCNY) which will pursue full-service construction projects in and around the New York City region. In addition to general contracting, DCNY will also provide construction management, project management, and owner's representation services for a wide array of project sectors throughout the region.

Derrick Diggs 47, President of Diggs Construction, is spearheading this venture based in Manhattan. "This organization is an affiliate of Diggs Construction that was started in Kansas in 1977 and has been doing business in the five NYC boroughs, the greater metropolitan region, and lower New England over the last fifteen years from Hartford, Connecticut." "With DCNY, we simultaneously accomplish three goals: 1) we transition the Hartford Office to Manhattan, 2) we establish a domestic organization to market to local owners and developers, and 3) we complete the final phase of the succession plan, which my father and I have been working on for some time," says Diggs. "The formation of DCNY promises to unlock a new phase of growth and development for Diggs Construction, which has operated as an invaluable partner for owners and developers for four decades," says Dale Diggs, founder of Diggs Construction.

Derrick Diggs, who has been a resident of New York City since 1999, began working with Diggs Construction's Hartford Office in 2006. In 2016, Mr. Diggs became President of the organization and began to implement a New York City-focused plan for growth and development. "Both the Governor of New York State and the Mayor of New York City have repeatedly announced plans to expand the breadth and depth of the housing inventory both locally and across the state," says Diggs, "I think we get more 'bang for the buck' both with marketing and organizational efficiencies by being a local business." "While we are thriving in both the Kansas City and Houston markets, the future growth of Diggs is in the New York metropolitan region and we believe we are setting ourselves up to reap the benefits with this move."

DCNY has strong business relationships in the greater New York marketplace. It will maintain a twin focus on private and public work, and leverage the parent organization's solid track record of contracting and managing ground-up and renovation projects in the commercial, residential, healthcare and academic/cultural market sectors.
